How to find your size:

To measure accurately, keep the tape measure taut, but don't pull it tight. Get a friend to help if possible. Measure over well fitting garments.

Chest: measure around the fullest part of the chest, keeping the tape parallel to the floor.

Arm: With hand on hip, measure from centre back at the neck, across the shoulder, elbow, down to the wrist bone.

Waist: bend to side; measure where body curves – even if you wear your pants lower.

Hips: with feet shoulder width apart, measure the fullest part of hip/thigh area.

Inseam: measure inside leg seam of pants from crotch to hem.

decorating one-stop-shop

Why use the one-stop-shop?

We are a one-stop-shop with no fuss, no hassle for quality decorating. We can help you to digitize your logo, and help you with your Embroidery, Embossing & Debossing, Heat Seal Transfers and Silk Screening requirements.

With our many years of experience and expertise in the industry, **we will make it easy and hassle free for you.**

Over 90% of our customers use embroidery, why?

Embroidery is a classic time-honoured method of embellishing garments with an authentic high quality representation of your logo...

Over thousands of years, embroidery techniques have been refined from the traditional hand stitched art form to the high tech, high speed computerised machines of today, offering complex designs with hundreds of custom colour choices.

Today's embroidery machines can turn almost any image into a high quality embroidered logo, that is wear and tear proof, and will survive almost any wash & wear regimen. It is far and away our most popular decorating option, and over 90% of our decorated garments are embroidered.

With over 300 thread colours - including specialty threads - in stock and full time experienced operators, we can complete any order in any timeline.

Want to differentiate your logo even more?

If you're looking to differentiate yourself from embroidery, or if you have a water proof garment and wish to retain the integrity of the fabric, it might be preferable to use non-penetrating methods such as Heat Sealing, Embossing or Debossing - all of which we offer in our One-Stop-Shop.

For more details please speak to your Promotional Product Distributor or visit our website www.trimarksportswear.com/decorating to see samples and learn about other decorating options.

Swatches & sewout samples: complimentary free digital image. A minimum of 12 units per logo colourway applies. Minimum of 72 units. Allow 3-7 business days after all logo approvals. No rush charges. Please note: Trimark Sportswear Group sells exclusively through a dedicated network of Promotional Products Distributors, Marketing Agencies and Specialty Advertising Agencies.
