## The Shefford Heat Panel Vest with 6,000 mAh power bank

Men's 14548 (S - 3XL) | Women's 94548 (XS - 2XL)

- Flexible, built-in heat panels on the front and back will heat up when vest is plugged into power bank
- Three temperature settings let you control the heat:
  - Blue** - Low Heat (38°C / 100°F)
  - White** - Medium Heat (45°C / 113°F)
  - Red** - High Heat (55°C / 131°F)
- Hidden pocket to store and plug in the power bank using USB connection
- Fully washable, so it's easy to take care of

**7121-62** | Leed's  
UL Listed Cycle  
6,000 mAh Power Bank

Power bank will provide heat for approximately 2.5 hours on high. Temperature guidelines are based on testing performed on individuals in a resting state. Sunshine, wind, humidity, precipitation, activity level and individual reactions to the weather can affect a person's comfort. These ratings are for reference only. For complete product information, visit [trimarksportsweare.com](http://trimarksportsweare.com). Included power bank will be shipped blank. For a decorated option, power bank and vest must be purchased separately. Shefford Vest and power bank packaged separately.
