

ROOTS73™

ROCKGLEN ECO INSULATED JACKET

M **19412** (S - 3XL)

W **99412** (XS - 2XL)

The Roots73™ Rockglen Eco Insulated Jacket features a breathable waterproof membrane and water-repellent finish, plus waterproof zippers and recycled polyester insulation, making it the perfect option for heavy rain or snow. And with recycled polyester fabric and recycled zippers certified by the Global Recycled Standard (GRS), it's as sustainable as it is stylish. Its body and hood are lined with comfy recycled polyester sherpa fleece to keep you warm, while its sleeves are lined with smooth taffeta so you can layer up without bunching. The hood features an exterior drawstring tunnel, plus an elastic drawcord and cordlocks to keep cold air out. The women's styling features a 3/4 length and a two-way zipper, plus shaped seams and a tapered waist for a better fit. It even comes in biodegradable polybags and recyclable packaging. And through a partnership with 1% For The Planet, one percent of sales are donated to environmental nonprofits.

FABRIC

OUTER SHELL: 60% Polyester / 40% Recycled Polyester dobby woven with waterproof (8000mm), breathable (600g/m²) membrane & water repellent finish, 105 g/m² (3.1 oz/yd²).
