

THE UNTOUCHABLE DECORATION

What is inFusion?

inFusion is a decorating method that seamlessly joins logos with our custom-made fabrics, creating a stylish image that is both lightweight and permanent.

Why inFusion? Lots of reasons...

- Endless colour possibilities with only one setup cost.
- Artwork is fused into the fabric, so you get the most breathable and comfortable garment possible.
- Large maximum imprint dimensions and unique locations. Want your logo wrapped around the hip? On a sleeve? On the pocket? You got it.

- **Need it fast?** inFusion orders are eligible for **SureShip®** so your decorated order is shipped the next day.

A few things to note:

- White ink can't be used with inFusion. White is treated like empty space, so the natural colour of the garment will show through.
- Since artwork is fused into the fabric, certain imprint colours will take on the colour of the garment.
- We can distress artwork for a more "retro" look. Just ensure that this is communicated in the order notes.

AS YOU CAN SEE HERE, THE COLOUR OF THE GARMENT SHOWS THROUGH TO FILL EMPTY SPACES IN THE LOGO.

THE SAME IMPRINT TAKES ON A DIFFERENT LOOK WHEN APPLIED TO DIFFERENT COLOUR GARMENTS.

DISTRESSING YOUR ARTWORK WILL CREATE A VINTAGE-LOOKING STYLE, LIKE THIS ONE.
